## IV° IRE WORKSHOP ON TRANSLATIONAL ONCOLOGY

### The New World of RNA diagnostics and therapeutics

#### INVITED SPEAKERS

- Frank J. Slack (Boston, USA)**
- Andrea Carfì (Cambridge, USA)**
- Fabrizio d'Adda di Fagagna (Milan, Italy)**
- Marco Marcia (Grenoble, France)**
- Eleni Anastasiadou (Rome, Italy)**
- Brid Ryan (London, UK)**
- George Calin (Houston, USA)**
- Gabriella Sozzi (Milan, Italy)**
- Jit Kong Cheong (Singapore)**
- Ranit Aharonov (Tel Aviv, Israel)**
- Giovanni Blandino (Rome, Italy)**
- Qiagen (Hilden, Germany)**

**March 27-28, 2023**

**Regina Elena National Cancer Institute**

**Rome**

## Welcome Message

- *Mammalian genomes encode for two main gene categories: protein coding transcription units and non-coding RNA transcription units.*
- *Over the last years the medical promise of mRNA has been fully realized with the approval of mRNA vaccines against SARS-Cov-2 as the most successful weapons in the fight of COVID-19.*
- *As per GlobalData there is a broad landscape of mRNA-focussed vaccines and therapeutics to tackle genetic disorders and oncological disease in various stages of clinical development.*
- *Despite, at earlier stage in the development than mRNA, non-coding RNAs that are stable, tissue specific and circulating biomarkers in cancer patients are the focus of unprecedented research efforts both at academic centres and pharmaceutical companies.*
- *Since only 20% of cancers carries actionable genetic alterations, the resurgence of research on RNA coupled with the advancement of big data analysis holds the promise to reshape prevention, diagnosis and therapy of cancer.*

### **ORGANIZING COMMITTEE**

**Frank J. Slack, Gennaro Ciliberto, Giovanni Blandino,  
Annamaria Biroccio, Rita Falcioni**

## Provisional Program

### SESSION THERAPEUTICS

Chairs: **Anna Biroccio**, Regina Elena National Cancer Institute

**Enzo Medico**, University of Turin, Italy

**Frank Slack**, Harvard Medical School, Boston, MA, USA

*"Towards microRNA therapeutics in cancer"*

**Andrea Carfi** Moderna Cambridge, MA, USA

*"mRNA/LNP: a revolution in vaccine research and development"*

**Fabrizio d'Adda di Fagagna** IFOM-ETS, Milan – CNR, Pavia, Italy

*"RNA therapeutics opportunities in aging diseases"*

**Marco Marcia** EMBL Grenoble

*"Dissecting biological mechanisms and folding dynamics of medically relevant large non-coding RNAs"*

**Eleni Anastasiadou** Sapienza University of Rome, Italy

*"From kisses to cancer: miRNA-aided immunotherapy"*

**Bríd M. Ryan** MiNA Therapeutics, London, UK

*"Applications of RNA activation in Oncology "*

### SESSION DIAGNOSTIC

Chairs: **Mauro Piacentini**, University of Tor Vergata, Rome, Italy

**Lucia Di Marcotullio**, University of Rome "Sapienza"

**George A Calin** University of Texas, Houston, TX USA

*"About motifs, non-coding RNAs and cancer therapy"*

**Gabriella Sozzi**, National Cancer Institute, Milan, Italy

*"MirRNA for early diagnosis and screening of lung cancer"*

**Jit Kong Cheong**, MiRXES - Singapore

*"A miRNA blood test for early detection of gastric cancer"*

**Ranit Aharonov** Pangaea Biomed, Tel Aviv, Israel

*"Prediction of Cancer Treatment Response from Histopathology Images Through Imputed Transcriptomics"*

**Giovanni Blandino** Regina Elena National Cancer Institute, Rome

*"Exploring miRNAs/mRNAs network in breast cancer progression"*

**Qiagen**, Hilden, Germany

*Title to be announced*
